Further, the Company recorded the audio and video throughout this E-AGM, which shall be considered as a part of the minutes of the meeting.

1. One share shall be counted as one vote. The vote of each shareholder is in accordance with number of shares held by such shareholder or by proxy.
2. Shareholders with a conflict of interest on the matter in any specific agenda have no right to vote in that agenda. However, in case of the voting to elect directors, it shall be deemed that there was no conflict of special interest for any shareholder (even if acting as a director of the Company). However, for voting on the directors' remuneration agenda, the Chairman of the Meeting would ask any shareholder who acts as the Company's director who will be entitled to receive such remuneration to

abstain from voting in order to comply with the principles of good corporate governance set out by the Stock Exchange of Thailand (SET).

When finished, the shareholders are requested to press 'lower your hand' in the Zoom program.

The Company will deduct such objection and/or abstention from the total number of votes of shareholders attending or casting votes in order to conclude the voting results of each agenda item.

In addition, for transparency in vote counting and to allow later review in accordance with the Good Corporate Governance of the Stock Exchange of Thailand, in Agenda 5 on election of directors to replace those who must retire by rotation, the shareholders who wish to vote agree, disagree or abstain are requested to press 'raise your hand' in the Zoom program. Whereby, each shareholder shall use his/her existing votes to elect one or more persons to be directors. In the event that multiple persons are elected as directors, the votes cannot be split to any number of persons. Persons who receive the highest number of votes in descending order will be elected as directors equal to the number of directors required or to be elected at this time. In the event that persons elected in descending order have equal votes in excess of the number of directors required or to be elected at this time, the Chairman of the Meeting shall have a casting vote.

4. The Master of Ceremonies will inform the meeting about the voting results of each agenda. The counted votes will be the total votes of shareholders who attend the meeting, both in person and by proxy. Each agenda will use the latest number of shares of the attendees in that agenda.
5. The resolution of the meeting will consist of the following votes:

Agenda 3 to Agenda 5 and Agenda 7

Agenda 2 To acknowledge the Annual Report of the Board of Directors of the Company in relation to the Company's operating results for the year 2021

Mr. Bandhoo Supakavanich asked Mr. Krisada Chavananand, Managing Director, to inform the meeting of the matter.

Mr. Krisada Chavananand presented the Annual Report of the Board of Directors of the Company in relation to the Company's operating results for 2021, which could be summarized as follows:

For the Company's operating results in accounting period ended as at December 31, 2021, the Company had earnings in total of Baht 1,369.09 million and net profit of Baht 46.22 million. The details of the Company's operating results including the report of the Audit Committee are provided in the Annual Report attached to the invitation letter of this meeting, which was distributed to all shareholders (Enclosure No. 3).

The Company's operating results in 2021 was a result of the industrial conditions of the global market and the domestic market as follows:

Global Market Outlook for 2021

In 2021, crude palm oil prices showed trend for continuous rise from 2020 and hit record high due to the increased soybean oil prices mainly as a result from lower soybean production output as well as higher petroleum stock prices, continued low levels of Malaysia's palm oil stock and the coronavirus disease 2019 (COVID-19) epidemic, which had continued to cause labor shortages in Indonesia and Malaysia due to border lockdown, resulting in production to the market being less than expected. The supply and demand for palm oil fluctuated periodically, as higher crude palm oil prices resulted in less demand for crude palm oil and the demand would increase once crude palm oil prices fall.

Domestic Market Outlook for 2021

In 2021, during the beginning of the year, the domestic crude palm oil price was higher than those in foreign countries and remained so until April and May when the foreign crude palm oil price increased to become higher than domestic prices. It was also during the period that crude palm oil was produced in the country in large quantities, resulting in increased exports, causing the domestic crude palm oil price to return to be higher than that in foreign countries. After that, the domestic crude palm oil price became lower than global market prices from time to time, which drove exports. However, for the overall outlook in 2021, the volume of palm fruit released to the market and the amount of crude palm oil produced increased from those of 2020. In 2021, there was no purchase of crude palm oil by the Electricity Generating Authority of Thailand (EGAT) and at the end of the year, the government issued a policy to reduce the use of biodiesel causing the demand for palm oil in the country to decrease. Moreover, in 2021, there was policy to support exports from the government and the price of crude palm oil in foreign countries showed possible trend to continue to rise causing the export of crude palm oil to increase significantly compared to 2020.

Global Industry Outlook for 2022

In 2022, the situation of the coronavirus disease 2019 (COVID-19) epidemic remains of concern. If the epidemic continues, it is expected that the demand for palm oil may slow down due to the country's lockdown and on the supply side, there will still be labor shortages in Indonesia and Malaysia. However, if the epidemic and mutation stop, the demand and supply for palm oil are expected to begin to recover. In late April 2022, Indonesia started a policy to ban palm oil exports due to concerns about high palm oil prices and possible shortages in the domestic market. Though, currently, Indonesia's palm oil stock is still at a relatively high level. Moreover, it is close to the season when the quantity of palm fruit will be released in the market in large numbers so Indonesia is expected to stop the implementation of such policy soon. In addition, the conflict between Russia and Ukraine, in which Ukraine is the global's major sunflower oil producer, had greatly reduced the supply of sunflower oil. Therefore, Europe and the United States have begun to import more palm oil to replace sunflower oil. At the same time, Russia which is the world's largest petroleum producer but has been banned by many countries around the world by not importing crude and edible oil from Russia. As a result, there was a sharp drop in petroleum supply causing the palm oil prices to remain high. Palm oil prices are expected to remain at a good level until the end of 2022 but the demand for palm oil may temporarily slow down during times when palm oil prices are too high.

Domestic Industry Outlook for 2022

On the supply side, the Office of Agricultural Economics (OAE) forecasted that in 2022 there will be 17.38 million tons of palm fruit in the market, which is higher than 2021. At the same time, as the government relaxes measures to control the spread of the coronavirus disease 2019 (COVID-19), it is expected that the demand for palm oil will increase due to tourism that will start to recover. However, the policy to reduce biodiesel to B5 and the crude palm oil prices that are expected to be high could lead to less demand. In light of these factors, it is expected that exports may amount to 30% of total crude palm oil production in 2022.

Mr. Bandhooon Supakavanich asked the meeting if anyone had any additional question. When there were no additional questions and comments raised, Mr. Bandhooon Supakavanich then requested the meeting to consider and acknowledge the Annual Report of the Board of Directors of the Company including the report of the Audit Committee included in the Annual Report.

Resolution: The meeting acknowledged the Annual Report of the Board of Directors of the Company in relation to the Company's operating results for the year 2021 including the report of the Audit Committee included in the Annual Report as presented by Mr. Krisada Chavananand.
